

Supplementary Fig. 6. Organ coefficients after toxicity test with celastrol in mice. (A) Body weight and organ coefficients of (B) brain, (C) heart, (D) lung, (E) liver, (F) kidney, (G) spleen, and (H) testis after toxicity test in mice. Error bars are represented as mean \pm standard error of mean. *P* values were determined by analysis of variance (ANOVA) test. NS, not significant.
